South African Peppers

Delight in the bite!

- no preservatives
- 100% pure fruit

Let your senses be inspired by the South African Peppers!

New possibilities with no (p)reservation

A unique process creates fresh and crisp cherry peppers
that are preservative free with an unmistakable taste!

Ready for any delicious filling

Due to the production process the peppers retain their shape and are much easier to handle and fill with your favourite choice of filling.

Ready to serve in minutes

a sweet, yet spicy pepper with
a sensational crisp taste

Create your own flavours

Peppers create opportunities for imaginative eating.
The filling possibilities are as endless as your imagination.

Which is your favourite?

plain cream
cheese

garlic

french
herbs

olives

tuna

. . . . your choise

Unique red peppers

The piquant pepper fruits have their origin in South Africa and the bush plant reaches a height of 1,5 metres and has bright red fruits which ripen from below to top.

Social Responsibility.

At Gates to Africa, we are proud to support the South African communities where we are operating.

To produce peppers there is a lot of picking and deseeding by hand – so today we have created more than 1600 agricultural jobs in the area of Polokwane. Mufama is a major employer with a staff complement of 400 direct jobs at the production facility in Polokwane.

As well as the employment, we have created, we are also partner with around approximately 18 farmers each with an average of 2 -15 hectares.
We are supporting them through capital training which included detailed manuals on all aspects of commercial farming. Mufama also visit the farmers regularly to offer technical help and check the fields.

Through this, we have created valuable and mutually beneficial partnership with DTI and IDC.
We are also involved in various Broad Based Black Economic Empowerment (BBBEE) farming initiatives as part of our Corporate Social Investment (CSI) programme.
